ABOUT ME

I am an aspiring Frontend Developer and a current B.Tech student at Silver Oak University, with a passion for creating responsive web interfaces using React and modern development practices. I have a solid foundation in JavaScript, complemented by practical experience across over 20 projects, including blogging platforms and e-commerce sites. I seek to leverage my skills in a challenging internship opportunity

EDUCATION

SILVER OAK UNIVERSITY, AHMEDABAD

Bachelor of Technology in Computer Engineering (5th Semester)

Manas School, Junagadh

April 2020 – May 2021

SKILL

- HTML
- CSS
- JavaScript
- React.js
- Tailwind CSS
- Redux
- React Router
- UI/UX Design
- Git, GitHub
- Node.js (Basic)
- MS Office
- Figma

PROJECTS

Appwrite Blog Platform

GITHUB: [APPWRITE BLOG](#)

Developed a full-featured blogging platform using Appwrite and React. Users can create, edit, and publish rich text blogs with a TinyMCE editor. Integrated form handling, image upload, and secure authentication.

- Tech Stack: React, Tailwind CSS, Redux, Appwrite, TinyMCE, React Hook Form

Twitter Clone

GitHub: [Twitter Clone](#)

Created a fully functional clone of Twitter including authentication, tweet creation, follow/unfollow users, and profile editing. Integrated real-time feed updates and bookmark features.

- Tech Stack: React, Redux, Appwrite, React Router, Lucide-react

SwiftCart – E-Commerce Website

GitHub: [SwiftCart](#)

An e-commerce site with product listing, cart functionality, filtering, and checkout UI.

- Tech Stack: HTML, CSS, JavaScript

Book Management System

GitHub: [Book Manager](#)

Built a system to add, update, and manage a collection of books using JavaScript and DOM manipulation. Good use of structured UI with validations.

- Tech Stack: HTML, CSS, JavaScript

Other Mini Projects – Currency Converter, Color Changer, React Todo App, Clones (Amazon, ChatGPT, VS Code), Weather App, Digital Clock, etc. (10–12 JS Projects, 12–14 React Projects, 2 Major Projects)
